You can earn points by engaging in predefined activities like trading, and earning passive interest on your capital, as specified in the Loyalty Program Terms and Conditions. The Company may periodically update these activities. To redeem points, you need to:

1. Choose the number of points you wish to redeem.
2. Select the trading account to deposit the converted points into.

The minimum number of points that can be redeemed is 10, and the conversion value in USD depends on the number of points being redeemed, ranging from $1 to $2 per loyalty point. Once you accept the relevant Terms and Conditions through your WB Portal, your loyalty points can be converted to your account base currency and added to your trading account balance. You can use this balance to trade or withdraw in full with no restrictions.
