How does the Loyalty Program work?

Loyalty Rewards · https://idwindsorbrokers.com/knowledge-base/loyalty-rewards/how-does-the-loyalty-program-work/

The Windsor Brokers Loyalty Program rewards your trading activities by granting you loyalty points based on predefined actions such as trading or activating passive interest rewards on your capital. Participation is automatic for all eligible clients with a validated live trading account.

At the end of each calendar month, the total number of accumulated closed lots to date will determine your status. The more lots you close, the higher your Loyalty Status will be. In return, the higher your Loyalty Status, the more points you will receive for each closed lot. This way, the more you trade, the more rewards you can accumulate and redeem. There are four successive status levels, as seen below:
Silver
Gold
Platinum
Diamond

You can redeem the points you've earned for US Dollars, which are then added to your trading account balance. The program operates continuously, but you can opt out or cancel your points at any time by contacting Customer Support.
