What are Closed Lots?

Loyalty Rewards · https://idwindsorbrokers.com/knowledge-base/loyalty-rewards/what-are-closed-lots/

“Closed Lots” refers to the cumulative number of trading lots that have been fully executed and closed across all your trading accounts. This includes all buy and sell transactions that have been completed, meaning the positions have been opened and subsequently closed. The total number of Closed Lots is used to determine your Loyalty Status and the number of loyalty points you earn.

For example, if you have multiple trading accounts and you close 10 lots in one account and 15 lots in another, your total Closed Lots would be 25. This cumulative total is what counts towards your Loyalty Status and point accumulation, ensuring that all your trading activities contribute to your progress in the Loyalty Program.
