What types of orders can I place on the MT5?

Trading Platform · https://idwindsorbrokers.com/knowledge-base/trading-platform/what-types-of-orders-can-i-place-on-the-mt5/

You can place several types of orders to manage your trading strategies effectively on the MetaTrader 5 (MT5). Below you can find a list of the main order types:

Market Orders:

These are executed immediately at the current market price. They include:

• Buy: To purchase an asset at the current Ask price.

• Sell: To sell an asset at the current Bid price.

Pending Orders:

These are orders to buy or sell an asset at a specified price in the future. They include:

• Buy Limit: To buy at a price lower than the current market price.

• Sell Limit: To sell at a price higher than the current market price.

• Buy Stop: To buy at a price higher than the current market price.

• Sell Stop: To sell at a price lower than the current market price.

• Buy Stop Limit: A combination of a Buy Stop and a Buy Limit order.

• Sell Stop Limit: A combination of a Sell Stop and a Sell Limit order.

Stop Orders:

These help manage risk by closing positions at predetermined levels:

• Stop Loss: To limit losses by closing a position at a specified price.

• Take Profit: To lock in profits by closing a position at a specified price.

Trailing Stop:

This is a dynamic stop order that moves with the market price to lock in profits while limiting losses.
