How can I close a position?

Trading · https://idwindsorbrokers.com/knowledge-base/trading/how-can-i-close-a-position/

To close a position:

- Double click on the position you want to close, the order window will pop- up, Click the "Close" button and "OK". From here you can also partially close positions by selecting the "Volume" tab.
- Or right-click on the position and from the open window click the "Close Order" button, the order window will pop-up and you may proceed with closing the position
- You can also close an order by clicking the "X" at the right end of the position

Note: If you have the "One Click Trading" activated, the positions will close once you click the "Close Order" or "X" buttons if you choose the second and third options.
