What is Contract for Difference (CFD)?

Trading · https://idwindsorbrokers.com/knowledge-base/trading/what-is-contract-for-difference-cfd/

CFDs are an over-the-counter (OTC) product and can be traded with the Company as the counterparty to all transactions undertaken. The price of CFDs is based on the price of the underlying instrument and is not traded on an exchange. Some CFDs have an intraday break, in addition to a daily closing. During these times, no transactions can take place.

For more information, please refer to the "Trading Conditions" from your portal under legal documents or on our website
